Dr. Al's Campaign is about the ISSUES. Take a look at where he stands.

Health Care: Dr. Olszewski is committed to restoring and preserving the doctor-patient interaction as a personal and private relationship. You choose your doctor and how you pay. Government run health care has never worked.

National Defense: Dr. Al served in the Air Force for 13 years and he knows the human and financial cost. He is committed to providing our troops with the resources necessary to be successful in times of war and peace. Strength and diplomacy are critical. War is the very last resort.

Veterans: Dr. Olszewski is a veteran and as a prior military physician, understands that our veterans must have very prompt treatment and routine medical needs must be met in local community healthcare systems. The present system of standing in line and driving long distances for treatment is not acceptable.

National Debt: Dr. Al will stand with those who wish to reduce the national debt. This can be done by increasing economic growth and reducing spending. Our national debt is the greatest threat to our nation's prosperity.

Pro-life: Dr. Olszewski believes in the dignity and value of all human life from conception to natural death.

Public Lands: Dr. Al wants state and federal lands managed. Lack of proper management of Federal public lands has caused 24 devastating fires in Montana in 2017 that destroyed 1.26 million acres of natural resources and affected the health of people. He wants to increase the number of Montanans who are able to make a living and provide for their families through the management of our public lands and increase access to public lands for Montanans to recreate. He does not support the sale of public lands.

Property & Water Rights: Dr. Olszewski believes our state and federal constitutions are to be followed at all times by all branches of government. The executive and judicial branches of our government are prohibited from making laws. The Legislative branches make laws but can't violate the constitutions. Therefore, he does not support the CSKT Compact, because it violates the Montana and Federal constitutions. Also, he took a required oath to support the Montana Constitution when he was elected to the legislature.
